## Dak Bungalows of Corbett

### OVERVIEW:

Located deep in the jungle the forest bungalows of Corbett are remnants of the Raj era and thankfully exist today in wonderful state of preservation. Far from bustling tourism activities the Forest Bungalows also known as forest rest houses or dak bungalows of Corbett are absolutely quaintest spots not to mention the high density of wildlife surrounding it.

The British had built hundreds of dak bungalows dotted all over the mountainous and forested region of what was then called United Provinces. These scenic bungalows served as inspection bungalows for visiting forest officers. Complete with an outhouse for accompanying staff and servants, stable and a hathikhana (elephant shed). They were located 8 to 14 kilometres from each other and could be conveniently covered in a day.

Bungalows such as the Dhikala Old forest Bungalow, Powalgarh & Kaladhungi have hosted visiting viceroys, governors and numerous other VVIPs and witnessed elaborate hunting or Shikar expeditions simply called *bandobast*. Most of these bungalows were built by riversides or streams because many of these officials were keen outdoorsmen and fishermen.
